Intense party game, if played properly. Beautiful design and flow is smooth. The tutorial and gameplay is easy to learn, bonuses don't need to be explained as the colour differentiates it.. + The game made me laugh

- + Very amusing cartoonish characters
- + Excellent graphics
- + Fast-paced
- + Nice soundscape
- Game crashed when I went into the options screen

Make up your own mind with this gameplay: <https://youtu.be/VXH0oWgYook>. Fun Build a Tower game. fun couch co-op game to play with your friends, and it's free! there's no reason you shouldn't try it out. Great soundtrack as well. Well the game is so fun when play with friends (in the same place, we can laugh together) and it's cool because it's free. BUT seriously so sad if there is NO online multiplayer for this game. I hope there is a new feature about online multiplayer, and oh ya I don't know why, whenever I chose MITO ARENA, it's broken or ya crashed.. Absolutely gorgeous party game. Well done!

[Overall 9/10. Good miniture game, can be nice but gets boring after a while. To improve this game the devs should have more ideas for different types of game modes. Without changing the game base you should just make slight changes to the game to give it more content and modes and it will be more interesting for longer. Overall worth a try.. cute little game with funny atmosphere which is also interesting for adults. I feel like we have been getting an increasing amount of "couch multilayer" games on Steam lately, and I don't think that's a bad thing. Totemori has you building towers with and against friends and bots alike, by stacking blocks to achieve the "best" tower. Destroying the opposing towers is always an OK option as well.. Good miniture game, can be nice but gets boring after a while. To improve this game the devs should have more ideas for different types of game modes. Without changing the game base you should just make slight changes to the game to give it more content and modes and it will be more interesting for longer. Overall worth a try.](#)
